

CRISIS-CHECK OVERVIEW

Crisis-Check ensures that a hotel minimises disruption from a severe weather event. It assesses the effectiveness of business continuity arrangements and where required provides guidance and resources and templates to assist in implementation.

Module areas include:

Planning

Ensuring that a management team is in place and that they have developed an effective plan and associated arrangements.

Building Conditions

Ensuring that the building(s) are suitably maintained and that all weak spots are identified.

Flood Protection

Ensuring that water ingress has been anticipated and suitable precautions have been implemented to protect against flood damage.

Emergency Power

Ensuring that emergency power systems are available and sufficient.

Emergency Water

Ensuring that water is available and safe to use in the event of main supply failure.

Employees

Ensuring that employees are actively involved in the emergency management plan and are trained accordingly.

Suppliers

Ensuring of continuity of supply for essential items.

Key Contacts

Ensuring communication is maintained with the most important contacts.

Business Functions

Ensuring that no matter what happens the hotel can still perform its business functions.

Recovery Location(s)

Ensuring that should an evacuation be necessary that arrangements have been made beforehand to ensure a successful transfer of guests and employees.

Emergency Procedures

Ensuring that the hotel has suitable and sufficient arrangements for preparing for a severe weather event.
